

A QUIZ FOR COACHES, ATHLETES, AND PARENTS

Review the "Heads Up: Concussion in Youth Sports" materials and test your knowledge of concussion.

Mark each of the following statements as True (T) or False (F)

- 1. A concussion is a brain injury.
- 2. Concussions can occur in any organized or unorganized recreational sport or activity.
- 3. You can't see a concussion and some athletes may not experience and/or report symptoms until hours or days after the injury.
- 4. Following a coach's rules for safety and the rules of the sport, practicing good sportsmanship at all times, and using the proper sports equipment are all ways that athletes can prevent a concussion.
- 5. Concussions can be caused by a fall or by a bump or blow to the head or body.
- 6. Concussion can happen even if the athlete hasn't been knocked out or lost consciousness.
- 7. Nausea, headaches, sensitivity to light or noise, and difficulty concentrating are some of the symptoms of a concussion.
- 8. Athletes who have a concussion should not return to play until they are symptom-free and have received approval from a doctor or health care professional.
- 9. A repeat concussion that occurs before the brain recovers from the first can slow recovery or increase the likelihood of having long-term problems.
